PROFILE

Hey there, I'm Shashwat Prithish. I've always been someone who loves diving into new challenges and finding solutions that make a difference. Whether it's tinkering with technology or exploring the depths of literature, I'm always on the lookout for something new to learn and master.

WORK EXPERIENCE

Advance Learning

2024 - PRESENT

- I learned more and more in Machine Learning and Data Science as AI was the booming sector in that year
- I also learned most of the AI tools that can help me in doing my work.

Intermediate level

2023

- I learned basics of Python and Data Science. I also learned web development in this year. I learned most of programming in this year
- I also learn Machine Learning, Video Editing, Graphic Designing and Video Editing in this year

Self Study

2024 - 2025

- I joined a computer coaching. There I learned the basics of computer and programming
- I made some low level project. My first project was a basic calculator in C.
